

The Proven Adhesive for PVC Vinyl Bonding

HH-66 VINYL ADHESIVE is an industrial strength cement widely used for vinyl material repair, maintenance and manufacture.

- Used extensively as the gold standard in improving the lifecycle of vinyl-based geotextiles
- Creates a superior flexible bond, unaffected by extreme weather and temperature conditions
- Convenient for custom fabrication as it resists water, oil, fuel, grease and many harsh chemicals

Erosion Control • Reinforcement & Containment • Landscaping & Nursery
