

The Proven Adhesive for PVC Vinyl Bonding

HH-66 VINYL ADHESIVE is an industrial strength cement widely used for vinyl material repair, maintenance and manufacture.

- Used extensively as the gold standard in PVC applications for the tent and inflatable industries
- Creates an outstanding flexible bond, superior in the refurbishing and sealing of torn fabrics
- Durable and highly resistant to oil, fuel, grease and many harsh chemicals; unaffected by extreme weather and temperature conditions

Tent & Awning Supplies • Inflatable Patch Kits • Fabric & Seam Assembly
